## Ahlstrom Corporation

 Interim report January-March 2010April 29, 2010
President \& CEO Jan Lång

Small fibers. Big difference.
Ahlstrom

## Highlights of January-March 2010

- Net sales approached pre-recession levels
- Profitability continued to improve
- Strong cash flow
- Mundra plant in India started operations

Ahlstrom 8

## Mundra plant in India started in Q1/2010

- After testing, the plant will begin deliveries in Q2/2010
- State-of-the-art multi-layer spunmelt fabrics for surgical drapes and gowns, facemasks, sterile barrier systems etc.
- Market situation in Asia looks encouraging
- Total cost of investment was about EUR 42 million

## Net sales Q1/2009-Q1/2010

## EUR million

- Increasing net sales - growth from Q1/2009 was $17.3 \%$
- Net sales still remained below pre-recession level

## Net sales by region

- Growth in net sales, especially in Asia and South America
- In North America, weakening USD and slower recovery in demand reduced net sales in euros

## Net sales by business area Q1/2010

- Net sales of specialty papers improved the most - recovery from recession increased sales volumes
- Trend in the Glass \& Industrial Nonwovens turned - increase after the weak 2009
- In the Advanced Nonwovens, exchange rate fluctuations were reflected in net sales

## Operating profit / loss Q1/2009-Q1/2010

- EBIT clearly improved from Q1/2009 - streamlining efforts and increased sales volumes due to recovery in demand

## Fiber Composites segment Q1/2010

Net sales

- Demand for filtration media for transportation industry and building materials benefited from economic upturn
- Demand steady for food packaging and teabag materials, as well as nonwovens for medical applications
- In wiping products market, demand began to decline in Q4/2009 - following a H1N1 related temporary peak- but increased in Q1/2010 compared to Q1/2009
- Wind energy and marine industries showed slight signs of recovery

## Specialty Papers segment Q1/2010

- Demand for specialty papers increased almost by $25 \%$ from the comparison period
- Demand was improved due to the recovery of the markets served by Ahlstrom
- Increased sales volumes in, among others, release and label papers, industrial papers, coated specialty papers and crepe papers
- Demand for products for automotive and construction industries began to recover

## Net cash from operating activities Q1/2009-Q1/2010

- Due to reduced operative working capital and improved profitability, cash flow continued strong

## Gearing in target range

EUR million

- Net debt and gearing ratio significantly reduced compared to Q1/2009
- Gearing ratio on March 31, 2010, was $55.3 \%$

## Strong development of working capital

- Target to decrease working capital by EUR 100 million in two years
- Project is in the final phase
- Working capital was reduced by EUR 118.3 million and turnover improved by 28 days from the end of 2008
=> turnover on March 31, 2010, was 48 days

## Maturity profile of medium/long term credit facilities

- Total liquidity, including cash, unused committed credit facilities, and the cash pool overdraft limits totaled EUR 338.3 million
- In addition, the company had available uncommitted credit facilities totaling EUR 143.8 million

| Profit/loss for the period | 5.2 | -3.3 |
| ROCE, \% |  |  |

Small fibers. Big difference.
April 29, 2010|

Grew 17.3\% mainly due to larger sales volumes and increased sales prices

Increased sales volumes and pulp prices

Improved due to increased sales volumes and restructuring programs

A tax refund of EUR 1.0 million from prior periods reduced the income tax

| Drawdowns and repayments | -17.5 | -41.7 |
| Net cash from financing activities | -18.4 | -41.7 |
| Change in cash | 6.6 | -42.4 |

## ROCE Q1/2009-Q1/2010

- ROCE is one of the most important indicators for the success of the strategy
- Target is to reach the $13 \%$ ROCE in the next few years

## Main short-term targets

Strategy implementation

- Active assessment of growth alternatives in Asia
- Development of key account and sales processes
- Strengthening of corporate culture and leadership methods

Continuous improvement measures

## Outlook

- Demand and net sales in 2010 are expected to increase to approximately the same levels they were in 2008
- Sales prices are and will be increased to cover rising raw material costs
- Sales volumes develop slightly more favorably than anticipated
- Demand in wind turbine and marine industries in Europe and North America expected to recover towards the end of the year
- EBIT excluding non-recurring items is expected to increase from 2009
- Improved demand, more efficient cost structure, continuous streamlining efforts

Thank you

Small fibers. Big difference.
